

Plank size:  
144mm wide by 18mm thick  
(actual size 140mm x 16mm)

# Small Bird Nesting Box

For larger birds such as Starlings and Woodpeckers  
increase width and height by 3-5cm

Entrance hole  
should be a  
minimum of  
12.5 cm from  
base of box

These dimensions are for reference only. You may  
need to adjust them according to the size of your  
wood and the type of bird you wish to attract.

## Hole Size

- 25mm - Blue Tit, Coal Tit
- 28mm - Great Tit, Tree Sparrow
- 32mm - House Sparrow
- 45mm - Starlings

Robins, Wrens and Spotted Flycatchers  
prefer open fronted boxes
